FACTORS AFFECTING THE ESTABLISHMENT

OF

LEPTOSPERMUM SCOPARIUM J.R. et G. Forst. (MANUKA)

A Thesis  
presented in partial fulfilment  
of the requirements for the degree,  
Master of Agricultural Science  
at  
Massey University

David Alan Grant

October 1966

### ACKNOWLEDGEMENTS

The author would especially like to thank Mr. A.E. Esler, Senior Lecturer in Agronomy at Massey University, for his supervision and encouragement.

Thanks are due to Mr. E.R. Hodgeson, Senior Lecturer in Physics and Engineering at Massey University, for devising the light meter circuit and making available facilities for construction and calibration.

The statistical guidance of Mr. A.C. Glenday, Biometrician, D.S.I.R., Palmerston North, is gratefully acknowledged as is the service provided by the Library staff at Massey University, and the excellent reproduction of diagrams, drawing, graphs and photographs by the staff of the Photographic Unit at Massey University.

Also acknowledged is the help of Dr. J.M. Hoy, Director, Entomology Division, D.S.I.R., Nelson, in supplying identified specimens of Australian Leptospermum; personnel of the Seed Testing Station, Department of Agriculture, Palmerston North, in making available facilities; Rukuhia Soil Research Station, Department of Agriculture in carrying out soil chemical analyses; Mr. J.A. Pollok, Senior Lecturer in Soils at Massey University, for soil identification; Mr. J.S. Dugdale, Scientist, F.R.I., New Zealand Forest Service, for insect identification.

To Dr. R.W. Brougham, Grasslands Division, D.S.I.R., Palmerston North; Prof. B.R. Watkin, Professor of Agronomy at Massey University; Mr. C.W. Van Kraayenoord, Soil Conservator, Ministry of Works, Palmerston North; Mr. W.R. Edwards and other friends the author expresses his appreciation of interest and helpful discussion.

Special acknowledgement must be made to Miss Wendy McNabb for her care and forbearance in typing this manuscript.

This study was carried out while the author was holder of a State Services Commission Study Award.

## TABLE OF CONTENTS
