EFFECTS OF PHOTOPERIOD ON SOME REPRODUCTIVE ORGANS  
AND ENDOCRINE GLANDS OF YOUNG RAMS

By

Martin John Zweng

A thesis presented in partial fulfilment  
of the requirements for the degree of

MASTER OF AGRICULTURAL SCIENCE

Massey University

1968

"The great tragedy of Science - the slaying of a  
beautiful hypothesis by an ugly fact."

T.H. Huxley - Collected Essays,  
VIII Biogenesis  
and Abiogenesis

TABLE OF CONTENTSCHAPTER IPHOTOPERIOD EFFECTS ON REPRODUCTIVE  
ORGAN AND ENDOCRINE GLAND DEVELOPMENT

	<u>Page</u>
Section 1 - <u>REVIEW OF LITERATURE</u>	1
I. THE EFFECTS OF PHOTOPERIOD ON THE REPRODUCTIVE ACTIVITY OF THE EWE	1
A. Natural breeding seasons	1
B. Photoperiod experiments on mature ewes	2
1. Reversed seasonal light treatment	2
2. Continuous light treatment	3
3. Equinoctial light treatment	3
4. "Hastened" seasonal light treatment	4
5. Constant light treatment	5
6. Pregnancy and light treatment	5
C. Natural seasonal light cycle and the attainment of puberty in immature ewes	5
D. Photoperiod experiments and the attainment of puberty in immature ewes	6
II. THE EFFECTS OF PHOTOPERIOD ON THE REPRODUCTIVE ACTIVITY OF THE RAM	7
A. Natural breeding seasons	7
B. Photoperiod experiments on mature rams	9
1. Reversed seasonal light treatment	9
2. "Hastened" seasonal light treatment	9
3. Constant light treatment	9
III. THE EFFECTS OF PHOTOPERIOD ON THE PHYSIOLOGY AND HISTOLOGY OF SOME ENDOCRINE GLANDS RELATED TO REPRODUCTION IN THE EWE AND RAM	10
A. Ovary	10
B. Testis	10
C. Anterior pituitary gland	11
D. Thyroid gland	12
IV. THE EFFECTS OF TEMPERATURE ON THE REPRODUCTIVE ACTIVITY OF SHEEP	13
A. Temperature and reproductive activity of the ewe	13

TABLE OF CONTENTS

	<u>Page</u>
1. Natural seasonal fluctuations	13
2. Temperature experiments	13
B. Temperature and reproductive activity of the ram	14
1. Natural seasonal fluctuations	14
2. Temperature experiments	15
C. Temperature and thyroid gland activity related to reproduction	15
Section 2 - <u>MATERIALS AND METHODS</u>	
I. ANIMALS	
A. Selection and early post-natal treatment	17
B. Weaning treatment	17
II. EXPERIMENTAL GROUPS	17
A. Photoperiod and temperature treatments	17
B. Nutrition	19
III. SAMPLING OF EXPERIMENTAL GROUPS	19
A. Sample age groups	19
B. Autopsy procedure	20
IV. HISTOLOGICAL TECHNIQUES AND MEASUREMENTS	20
A. Fixation and embedding	20
1. Testis and epididymis	20
2. Thyroid gland	20
3. Anterior pituitary gland	20
4. Pineal gland	21
5. Adrenal gland	21
6. Seminal vesicles	21
B. Sectioning and staining	21
1. Testis and epididymis	21
2. Thyroid gland	21
3. Anterior pituitary gland	21
4. Pineal gland	22
5. Adrenal gland and seminal vesicles	22

TABLE OF CONTENTS

	<u>Page</u>
C. Measurements -- qualitative and quantitative	22
1. Testis	22
2. Thyroid gland	22
3. Anterior pituitary gland	22
V. STATISTICAL ANALYSES OF GRAVIMETRIC AND HISTOLOGIC MEASUREMENTS	23
Section 3 - <u>OBSERVATIONS</u>	24
I. BODY WEIGHTS	25
A. Weights of 28 day old ram lambs	25
B. Weight gains	26
C. Weights at sacrifice	26
II. TESTES	26
A. Weights	26
B. Histology	26
C. Semen samples	27
III. THYROID GLANDS	28
A. Weights	28
B. Histology	28
IV. ANTERIOR PITUITARY GLANDS	28
A. Weights	28
B. Histology	29
V. PINEAL GLANDS	29
A. Weights	29
B. Histology	29
VI. ADRENAL GLANDS	30
VII. SEMINAL VESICLES	30

TABLE OF CONTENTS

	<u>Page</u>
Section 4 - <u>DISCUSSION</u>	31
 <u>CHAPTER II</u>  	
PHOTOPERIOD EFFECTS ON PINEAL GLAND ACTIVITY	
Section 1 - <u>REVIEW OF LITERATURE</u>	38
I. THE RELATIONSHIP OF THE PINEAL GLAND AND DAILY PHOTOPERIOD TO THE SIZE OF THE REPRODUCTIVE ORGANS AND ENDOCRINE GLANDS	38
A. Effects of pinealectomy	38
1. Female reproductive organs	38
2. Male reproductive organs	39
3. Endocrine glands	39
B. Effects of daily photoperiod	39
1. Continuous photoperiod	39
2. Short photoperiod	40
C. Effects of pineal gland extract injections and pineal gland transplants	41
II. PINEAL GLAND PHYSIOLOGY AND HISTOLOGY RELATED TO DAILY PHOTOPERIOD	43
A. Physiology and histology	43
B. Effects of melatonin injections	44
III. PATHWAYS OF RESPONSE OF THE PINEAL GLAND TO DAILY PHOTOPERIOD	46
IV. THE RELATIONSHIP OF PINEAL GLAND ACTIVITY AND DAILY PHOTOPERIOD TO THE PHYSIOLOGY AND HISTOLOGY OF ENDOCRINE AND NEUROENDOCRINE SYSTEMS	48
A. The response of the pineal gland to altered endocrine gland activity	48
B. The response of endocrine and neuroendocrine systems to altered pineal gland activity	48
1. Hypothalamic neuroendocrine system	48
2. Anterior pituitary gland	49
3. Thyroid gland	51

TABLE OF CONTENTS

	<u>Page</u>
Section 2 - <u>MATERIALS AND METHODS</u>	54
I. ANIMALS	54
II. EXPERIMENTAL DESIGN	54
A. Photoperiod treatments	54
B. Melatonin injections	55
C. Nutrition	55
III. AUTOPSY PROCEDURE	55
IV. TISSUE TREATMENTS	56
A. Lypholization of anterior pituitary glands	56
B. Fixation and embedding	56
C. Sectioning and staining	56
1. Hypothalami	56
2. Other tissues	57
V. MEASUREMENTS	57
A. Histological	57
1. Testes	57
2. Thyroid glands	57
3. Pineal glands	57
B. Bioassays of anterior pituitary gland hormones	57
1. Luteinizing hormone (LH)	57
2. Thyroid stimulating hormone (TSH)	58
VI. STATISTICAL ANALYSES	59
A. Gravimetric and histologic measurements	59
B. Bioassays	59
1. Luteinizing hormone (LH)	59
2. Thyroid stimulating hormone (TSH)	59

TABLE OF CONTENTS

	<u>Page</u>
Section 3 - <u>OBSERVATIONS</u>	61
I. BODY WEIGHTS	62
A. DAY 0 weights	62
B. DAY 13 weights	62
C. Weight gains from DAY 13 to DAY 41	62
D. Feed intakes from DAY 13 to DAY 41	62
E. DAY 41 weights	62
F. Covariance analyses	63
II. PINEAL GLANDS	63
A. Weights	63
B. Histology	63
III. HYPOTHALAMI	64
IV. ANTERIOR PITUITARY GLANDS	65
A. Weights - wet and dry	65
B. Relative hormone concentrations	65
1. Luteinizing hormone (LH)	66
2. Thyroid stimulating hormone (TSH)	66
V. THYROID GLANDS	67
A. Weights	67
B. Histology	67
VI. TESTES	67
A. Weights	67
B. Histology	67
VII. EPIDIDYMIDES	68
VIII. SEMINAL VESICLES	68

TABLE OF CONTENTS

	<u>Page</u>
IX. ADRENAL GLANDS	68
Section 4 - <u>DISCUSSION</u>	70
<u>GENERAL SUMMARY</u>	82
<u>REFERENCES</u>	84
<u>APPENDICES</u>	
I. DATA FROM RAMS OF GROUP 3 AND GROUP 4 - EXPERIMENT I	i
II. DATA FROM RAMS OF PRE-EXPERIMENTAL, 28 DAY-OLD AGE GROUP - EXPERIMENT I	ii
III. LUTEINIZING HORMONE BIOASSAY, SUMMARY OF ANALYSES OF VARIANCE - EXPERIMENT II	iii
IV. THYROID STIMULATING HORMONE BIOASSAY, SUMMARY OF ANALYSIS OF COVARIANCE ADJUSTING FINAL FOR INITIAL RADIOACTIVITY COUNTS - EXPERIMENT II	iv

LIST OF TABLES

<u>TABLE</u>	<u>Title</u>	<u>Following page</u>
1	EXPERIMENT I - Summary of Analyses of Variance, Weighted Means	24
2	EXPERIMENT I - Histological Observations of Spermatogenic Development	27
3	EXPERIMENT II - Summary of Analyses of Variance, Weighted Means	61
4	EXPERIMENT II - Summary of Covariance Analyses, Adjusted Means	61

LIST OF TEXT - FIGURES

<u>Text - figure</u>	<u>Title</u>	<u>Following page</u>
1	EXPERIMENT I: Photoperiod Treatments for GROUP 1 and GROUP 2 rams	25
2	EXPERIMENT I: Unweighted Mean Thyroid Follicle Cell Heights of GROUP 1 and GROUP 2 rams	28
3	EXPERIMENT I: Unweighted Mean Anterior Pituitary Gland Weights of GROUP 1 and GROUP 2 rams	32
4	EXPERIMENT II: Unweighted Mean Pineal Gland Weights of "Experimental" and "Control" rams of GROUP 1 and GROUP 2	63
5	EXPERIMENT II: Unweighted Mean Pineal Gland Nuclei Density Values of "Experimental" and "Control" Rams of GROUP 1 and GROUP 2.	64
6	EXPERIMENT II: Unweighted Mean Thyroid Follicle Cell Heights of "Experimental" and "Control" Rams of GROUP 1 and GROUP 2	67

LIST OF PLATES

<u>PLATE</u>	<u>Title</u>	<u>Following page</u>
1	EXPERIMENT II: Sample Pineal Gland Histology of "Experimental" and "Control" Rams of GROUP 1 and GROUP 2	64
2	EXPERIMENT II: Sample Paraventricular Nucleus Histology of "Experimental" and "Control" Rams of GROUP 1 and GROUP 2	65
3	EXPERIMENT II: Sample Thyroid Gland Histology of "Experimental" and "Control" Rams of GROUP 1 and GROUP 2	67

### ACKNOWLEDGEMENTS

The author herein acknowledges the academic guidance and technical assistance of the following persons:-

Dr. M. F. McDonald (Supervisor), Professor D. S. Flux (bioassays), Dr. F. R. M. Cockrem (statistics), Dr. R. E. Munford (bioassays), and Mr. C. Muir (technical).

All photographs were processed by the Central Photography Unit, Massey University.

### ADDENDUM.

In addition to acknowledgements already made, this thesis project was assisted by:-

Mr. C. Hawthorne for the feeding and care of animals,  
Mr. E. Ormsby for guidance in bioassays and hypophysectomy of rats, and  
Dr. G. Butler, Plant Chemistry Division, D.S.I.R., for provision of radio isotope counting equipment.

This work was aided in part by a University Research Committee Grant, 64/215.
