ACKNOWLEDGMENTS

I would like to thank my mother and my sister for their support.

I would also like to thank my supervisor, Dr John Moremon, for his patience and guidance as a supervisor, and especially his attention to detail when it came to preparing the thesis for examination; and for his additional willing assistance as the postgraduate coordinator.

With fond memory, I would also like to acknowledge the late Piers Reid, Maj Gen (rtd), who was a willing mentor since I was an undergraduate student.

I would, lastly, like to also thank the Massey University Library staff for their exemplary service and assistance.
