“Diaries of a Traveller” -

Creating Innovation in Mobile Game Design through the application of Procedural Content

---

Luiz O. P. dos Santos

Acknowledgements

I would like to thank my supervisors Max Schleser and Tanya Marriott for their direction, dedication and invaluable advice along this journey.

I would also like to express my deep appreciation to Julienna Preston, Julie Bevan, Audrey Dench and Timothy Savage for all their support, constant help and moral support they all provided.

Table of Contents

1 - Introduction ... 6
1.1- Abstract ... 6
1.2 - Diaries of a Traveller: ... 7
1.3 - Research Questions: ... 7
1.4 - Hypothesis: ... 8
1.5 - Method: ... 9
1.6 - Design Practice: ... 11
1.7 - Technical Aspects for the Mobile Game: ... 11
1.8 - Explanation of Terms: ... 13
1.9- Overview ... 15
2 - Video Games ... 18
2.1 Video games as Action ... 18
2.2 - Physical space and a new world perception ... 20
2.3 - Mobility as a meaningful feature in the gameplay ... 21
2.4 - Tap, touch and swipe: the lack of joystick in touch screen devices ... 23
3 - PCG: A potential innovative method for Personalised Content Delivery ... 28
3.1 - Procedural content Generation (PCG) : An Introduction ... 28
3.2 - Manual versus algorithmic method in Game Design ... 30
3.4- Can we generate everything algorithmically or dynamically? ... 31
3.5 - Games and PCG: Case Studies ... 32
3.5.1 - Spore (2008) ... 32
3.5.2 - SYNTH (2009) ... 34
FIGURE 9 RHYS P. HOVEY. (2009) SYNTH (PC) - GAME ... 35
3.6 - Procedural Content Generation: pros and cons ... 35
4 - Game customisation versus game personalisation ... 38
4.1 - Game customisation ... 38
4.2 - Personalisation ... 40
4.2.1 - Absolute Personalisation ... 41
4.2.2 - Incidental Personalisation ... 44
5 - First Person Games, Narrative and the Advent of Indie Games ... 46
5.1 - Indie Games (Independent Games) ... 46
5.2 - Game Narrative: ... 47
5.3 - Diaries of a Traveller – A First Person Indie Game ... 48
6 - Short Mobile Game History and the IPad ... 53

6.1 - Tetris and Snakes 53
6.2 - Enhanced multimedia and Connectivity 54
6.3 - Mobile Apps – Games as the most popular app category 56
6.4 - Social Media Mobile Games and new game players 57
6.5 - The iPad as an emergent game platform 58
7 - The New Media – information, space and mobility 62
7.1 - New Media 62
7.2 - UGC - user generated content 64
7.3 - Social Media Networks and the Emergency of Social Media Games 65
8 - Diaries of a Traveller: 67
8.1 - An introduction 67
8.2 - Designing the Game: 68
8.3 - Why Unity 3D ? 68
8.4 - Unity Experiments 70
8.5 - Theoretical approach: Using PCG (dynamically generated content) to randomise the game texture and environment elements 73
8.5.1 Clean House 74
8.5.2 - Under-Water House 75
8.5.3 - Colourful House 76
8.7 -Touch-Screen as an input method 78
8.7.1 - Touch-screen for expressive in-game commands 79
8.9 - Camera experiments: 82
8.10 - Social Media Experiments 83
8.12 - Diaries of a traveller: using the physical space as way to personalise the game experience 85
8.13 -The Airport - mobility in a coherent way 90
8.13.1 - Weather change 92
8.13.2 - What time is it? Location as a determiner of time: 94
8.13.3 -Your flight was cancelled – real time flight information 95
8.13.4 - Where am I? Determining the player's physical location: 96
8.13.5 - This music sounds familiar: Integrating the player's music library into the game 96
8.14 - Facebook integration – a key element for personalising the game experience 97
8.14.1 - Facebook information: What can we use as game designers? 97
8.14.2 - Facebook integration via gameplay: 98
8.15 - PCG as a way to "randomise" gameplay 99
9 - Final Conclusion 100

10-Final Project and Exhibition Images: 103
11 - Bibliography: 109
12 - Table of Figures 113
