III. REVIEW OF LITERATURE.

1. Heat Production. 49
2. Effect of Climate on Body Temperature of Cattle. 56
   (a) Controlled experiments. 57
   (b) Field experiments 59
3. Effect of Climate on Respiration Rate of Cattle. 69
   (a) Controlled experiments. 69
   (b) Field experiments 72
4. Effect of Climate on Pulse Rates of Cattle. 78
   (a) Controlled experiments. 79
   (b) Field experiments 81
5. Effect of Climatic Elements on the Blood of Cattle. 83
   (a) Controlled experiments. 83
   (b) Field experiments 84
6. Effect of Climatic Elements on Milk Production and
   Milk Composition of Cattle 85
   (a) Seasonal effects 86
   (b) High and low temperatures. 89
7. Influence of Solar Radiation on Cattle and the
   Influence of the Hairy Coat 94
8. The Skin Temperature of Cattle and its Relation to
   the Thermal Environment. 102
9. Vaporization Loss through the Skin of Man. 106
10. Vaporization Loss through the Skin of Cattle
    Water consumption 107
    Sweat glands and sweating 113
11. Adaptability. 124
12. Limitations of our Knowledge. 127

IV. TECHNIQUES OF MEASUREMENT. 133
1. Body Temperature. 133
2. Skin Temperature. 134
3. Measurement of Absorption and Reflection of
   Solar Radiation. 139
4. Measurement of Respiratory Rate 140
5. Measurement of Heart Rate and Blood Pressure 142
6. Measurement of Sweating and Evaporative Loss 143
7. Methods of Measuring the Thermal Elements of
   Climate. 146
I. INTRODUCTION.
Objects of this Section. 148

II. METHOD OF PROCEDURE.
(a) Stock 150
(b) Skin temperature apparatus 150
(c) Body temperature 151
(d) Respiration rate 152
(e) Pulse rate 152
(f) General procedure 152
(g) Diurnal Trial 153
(h) Skin temperature 154

III. SOURCE AND TREATMENT OF THE DATA.
A. Preliminary Skin Temperature Work. 155
B. Outside Measurements. 155
C. Diurnal Data. 156
D. Skin Temperature Data. 157

IV. RESULTS.
A. Preliminary Skin Temperature Work
   Discussion 158
   160
B. Outside Data.
   (a) Skin temperature 164
   (b) Rectal temperature 164
   (c) Respiration rate 168
   (d) Pulse rate 171
   (e) Components of variance 173
   (f) Intra-class correlations 175
   (g) Correlation analysis 175
   (h) Regression 178
   (i) Partial Correlation and multiple
        correlation analyses 180
C. Diurnal Data.
   (a) First Section 189
   (b) Second Section 191
   (c) Correlation analysis 193
D. Skin Temperature.
   (a) The influence of hair 195
   (b) Position effect 195
E. Air Temperature Data.
   (a) Outside measurements 198
   (b) Diurnal trial 199
   (c) Skin temperature trial 199
V. DISCUSSION OF RESULTS.

A. Preliminary Skin Temperature Work.
   Discussion
   Skin temperature
   Rectal temperature
   Respiration rate
   Pulse rate
   Components of variance
   Intra-class Correlations
   Correlation Analyses
   Regression Analyses
   Partial correlation and multiple correlation analyses

B. Outside Measurements.
   Skin temperature
   Rectal temperature
   Respiration rate
   Pulse rate
   Components of variance
   Intra-class Correlations
   Correlation Analyses
   Regression Analyses
   Partial correlation and multiple correlation analyses

C. Diurnal Trial.
   Body temperature
   Respiration rate
   Pulse rates
   Correlation analysis

D. Skin Temperature.

E. Summary of Results.

VI. CONCLUSIONS.

REFERENCES.

APPENDIX.
