Learning Teaching & Teaching Learning:

An Exploratory Study on Conceptions of Teaching Held by Academic Staff Members in a New Zealand Polytechnic.

A Thesis Presented in Partial Fulfilment of the Requirements for the Degree of Master of Education Administration

in

Education

at Massey University

Jane Elisabeth Khull
1997
Abstract

This research aimed to identify conceptions of teaching held by lecturers in a school within a New Zealand polytechnic. It also identified factors which influence conceptions of teaching, in particular factors which might affect a transition from a knowledge transmission conception of teaching (Theory 1) to a learning facilitation (Theory 3) conception (Ramsden, 1992). Data on academic staff members' conceptions of teaching was sought from a sample of academic staff at different stages in their career within one School of a polytechnic. A questionnaire was used to identify temporal and departmental trends in conceptions of teaching and experiences of learning about teaching. Qualitative data was gathered from interviews with academic staff and their managers on the nature of the transition over time at different points in a teachers career. This data was subjected to a critical analysis in order to identify factors which enhance or constrain the transition. The results are expected to be of interest to tertiary teachers, particularly staff developers and those directly responsible or accountable for improving the quality of teaching in tertiary education institutions.
Acknowledgments

Completion of this thesis was made possible by the participation and support of a number of people.

I am very grateful to the staff of the School of Health Sciences who generously contributed their time to participate in this research.

Particular thanks to my supervisor Dr. Janet Burns, for her infinite patience, and her rigorous, high quality feedback on countless drafts.

Special thanks for personal support to Jenny Neale and Pleasance Hansen, who tolerated many stages of this thesis and believed it would be finished at times when I didn't.
## Table of Contents

Abstract............................................................................................................ ii  
Acknowledgments............................................................................................ iii  
Table of Contents ............................................................................................ iv  

### Chapter 1: Introduction

1.1 Aims and Significance............................................................................. 4  
1.2 Background............................................................................................. 4  
1.3 Thesis Outline....................................................................................... 5  

### Chapter 2: Literature Review

2.1 Ramsden’s Theories of Teaching in Tertiary Institutions......................... 7  
2.2 The Nature of Student Learning............................................................ 12  
2.2.1 Qualitative Differences in Student Learning....................................... 13  
2.2.2 Curriculum Development and Differential Learning Outcomes ......... 15  
2.2.3 Approaches to Learning................................................................. 17  
2.2.4 The Context of Learning............................................................... 19  
2.3 The Acquisition of Knowledge About Teaching...................................... 20  
2.3.1 Principles of Effective Teaching in Higher Education....................... 21  
2.4 Recent Related Research................................................................. 23  
2.5 The New Zealand Context................................................................. 24
Chapter 3 : Methodology

3.1 Research Problem ................................................................. 26
3.2 Research Questions ............................................................... 27
3.3 Theoretical Framework .......................................................... 29
3.4 Research Method .................................................................... 30
3.5 Research Design ...................................................................... 33
3.5.1 The Case ........................................................................... 33
3.6 Ethical Considerations ............................................................. 34
3.7 Data Collection ....................................................................... 35
3.7.1 Teacher Questionnaire ......................................................... 36
3.7.2 Teacher Interviews ............................................................... 41
3.7.3 Document Analysis ............................................................. 46
3.7.4 Management Interviews ....................................................... 48
3.8 Summary .................................................................................. 50

Chapter 4 : Teaching Context

4.1 Document Analysis ................................................................. 51
4.1.1 The Academic Board Quality Assurance Guidelines ............. 51
4.1.2 Course Handbooks .............................................................. 53
4.2 Management Interviews ........................................................ 58
4.2.1 Expectations of Changes in Approaches to Teaching .......... 58
4.2.2 Perceptions of Relationship Between Conception of Teaching and Years of Teaching Experience ........................................... 60
4.2.3 Factors Perceived to Affect the Development and Change of Conceptions of Teaching ......................................................... 62
4.2.4 The Context of Teacher Development .................................. 64
4.3 Summary .................................................................................. 66
Chapter 5: Teacher Questionnaire

5.1 Population of Teaching Staff in a School of Health Sciences ........ 68
5.1.1 Gender Distribution ............................................................... 69
5.1.2 Length of Tertiary Teaching Experience ............................... 69
5.1.3 Occupational Identity ........................................................... 71
5.2 Teachers Perceptions of their Teaching .................................... 72
5.2.1 Approaches to Teaching as Elements of Conceptions of Teaching .......................................................... 73
5.2.2 Influences on Teaching ....................................................... 75
5.3 Teacher Development in the School of Health Sciences ............ 76
5.3.1 Teacher Education ............................................................... 76
5.3.2 Teacher Perceptions of Most Valuable Sources of Learning About Teaching ....................................................... 80
5.3.3 Recency of Most Valuable Experience of Learning About Teaching ............................................................. 86
5.3.4 Help with Problems in Teaching .......................................... 88
5.3.5 Professional Development Time ........................................... 91
5.4 Summary ............................................................................. 92

Chapter 6: Teacher Interviews

6.1 Conceptions of Teaching .......................................................... 94
6.1.1 Teaching as Transmitting Knowledge .................................... 94
6.1.2 Teaching as Facilitation ........................................................ 98
6.1.3 Changes in Students ............................................................. 100
6.2 Conceptions of Teaching Related to Years of Teaching Experience ............................................................ 102
6.2.1 New Lecturers ................................................................. 102
6.2.2 Post Probationary Lecturers ................................................ 104
6.2.3 Experienced Lecturers .......................................................... 109
6.3 Factors Perceived to Affect the Development of Conceptions of Teaching ................................................................. 111
6.3.1 Changes in Qualifications Taught ........................................ 112
6.3.2 Curriculum Change ............................................................... 114
6.3.3 Course Review ........................................................................ 117
6.4 The Context of Teacher Development in the School Between the Three Identified Experience Categories ......................................... 117
6.4.1 New Lecturers ........................................................................ 117
6.4.2 Post Probationary Lecturers .................................................. 118
6.4.3 Experienced Lecturers ............................................................. 119
6.5 Summary .................................................................................. 119

Chapter 7: Discussion and Conclusions

7.1 Conceptions of Teaching Within a School of Health Sciences ...... 121
7.2 Relationship of Conceptions of Teaching to Time in Teaching ...... 125
7.3 Contextual Factors Which Influenced Conceptions Of Teaching ................................................................................ 130
7.3.1 Changes in Institutional Policy ............................................... 130
7.3.2 Managers' Expectations of Teaching Staff .............................. 131
7.3.3 Curriculum Development Activities ..................................... 133
7.3.4 The Context of Teacher Development ................................. 135
7.4 Conclusions ............................................................................ 137
Appendices

Appendix 1 : Teacher Questionnaire ................................................................. 138
Appendix 2 : Tables of Random Sample Selection of Lecturer Interview Participants ............................................................................. 149
Appendix 3 : Lecturer Interview Schedule .......................................................... 152
Appendix 4 : Management Interview Schedule .................................................... 157
Appendix 5 : Approaches to Teaching by Department and by Teaching Experience ...................................................................................... 159
Appendix 6 : Influences on Teaching by Department and by Teaching Experience ...................................................................................... 171
Appendix 7 : Excerpts from Course Handbooks .................................................... 188
Appendix 8 : Professional Development Time ..................................................... 187
