A STUDY OF THE PLATEAU ARRAY

SECTION I

A STUDY OF THE PLATEAU ARRAY.

INTRODUCTION

Thesis Submitted by

J.A. Sutherland. B.Agr.Sc.

Concerning subsection (e), 608 of the Animal Husbandry
Section of the Master of Agricultural Science Degree
and incorporating work carried out during the tenure
of the Farmers Union Research Scholarship and the
Shell Scholarship 1938.

[Thesis]

A STUDY OF THE PLATEAU ARRAY

SECTION I

	Page
<u>INTRODUCTION</u>	1
<u>MATERIALS AND METHODS</u>	13
General	
Breeds	
A. Romney	13
(a) Experimental Romney sheep	14
(b) Romney Stud sheep	15
(c) Miscellaneous Romney Cross- breeds	15
B. Wensleydale	16
C. Merino	16
Covering	16
Sampling	17
(a) Sampling positions	
(b) Sampling methods	18
(c) Sampling times	
Stored material	19

SECTION II

	Page
<u>FIBRE TYPES</u>	
<u>DESCRIPTION OF THE PLATEAU ARRAY</u>	
Introduction	21
<u>HALO-HAIRS</u>	22
Halo-hair length	23
Variation in Halo-hair length in different parts of the body	26
Halo-hair coarseness	28
Shedding of the Halo-hairs	30
Halo-hair shape	34
Summary	37
<u>SUPER-SICKLE FIBRES</u>	
<u>SUPER-SICKLE A</u>	40
"Short" Super-sickle A fibres	41
Microscopic features of the Super-sickle A fibres other than "Short"	45
Shedding of the Super-sickle A fibres	46
Super-sickle fibres at different parts of the body	50
Summary	54
<u>SUPER-SICKLE A- FIBRES</u>	56
Super-sickle A- length	58
Tip form	62
Summary	
<u>SUPER-SICKLE B FIBRES</u>	65
Classification of Super-sickle B fibres	65
Tip length	69
Tip form	70
Post-natal Medullation of Super-sickle B fibres	71
Super-sickle B Numbers in the Plateau Array	71
Summary	

SICKLE FIBRES

THE PLATEAU ARRAY

Introduction

The Fibre type arrays of the Romney Marsh
lamb

117

- (a) Plateau
- (b) Saddle
- (c) Ravine
- (d) Valley
- (e) Plain
- (f) Escarpment
- (g) All in

Intermediate arrays

119

The Plateau Array

119

Summary

122

TOUGHNESS IN THE PLATEAU ARRAY

The judgement of toughness within the Plateau
Array

123

- A The number of fibre types present 124
- B Associations between fibre types with
special reference to those fibres
which are intermediates 125
- C Freedom of Shedding in the Plateau
Array and its importance in regard
to the judgement of toughness 128

Summary

FEATURES ASSOCIATED WITH TOUGHNESS OR WEAKNESS IN THE PLATEAU ARRAY

- A The abundance of the Super-sickle A
fibres in relation to the Halo-hair

numbers

142

B The presence of a distinct break or precipice in the continuity of the Curly-tip fibres	148
---	-----

Summary

<u>THE FORCES AT WORK WHICH PLAY AN IMPORTANT PART IN THE DETERMINATION OF THE ARCHITECTURE OF THE FLEECE</u>	162
