spot finder

- Use the Google Maps to explore and find new windsurfing spots.
- Quick search existing spots with the Spot Finder.
- When you've found a spot, save it as a favourite, then keep up to date with the action.

session logger

- Get out on the water!
- Log your sessions at your favourite windsurf spots.
- Rate the session and upload photos or link to video action.
- Check out your friends sessions and see what spots are going off!

spot ratings

- Every session logged helps to build the profile of your favourite windsurfing spots
- See what conditions *really* work and score quality time on the water.

PLEASE READ THIS!

Its all about this project and I have to say it.

This is a research project being conducted by Chris Brown for a Master of Design Degree at Massey University, Wellington, New Zealand. The project will test two slightly different web interface designs. You will be presented with one of the designs, and are asked to use the site at your leisure over next month to add your session logs. At the end of test period you'll be asked for your feedback in an online questionnaire.

Activity on the site will be anonymously tracked and used in a statistics report. The information gathered will be used to prove or disprove a theory and will be used to refine the future design of the site.

No personal information submitted within the site will be used. Your confidentiality and anonymity will be protected at all times. You'll be given access to a summary of the study findings when it's finished, and the site will be kept running and developed beyond the conclusion of this study. Your data will still be available to you.

I recommend that you have broadband and an up-to-date web browser to best experience this site.

Your Account Information

This test is only available to existing New Zealand based Deepfried members.

You are currently logging in with your Deepfried User Name and Password carried over [from your Deepfried account](#).

Is your email address correct?

[update](#)

If you choose to take part in this research project, you agree that:

- ☐ I have read the information above and I understand that I may ask further questions at anytime.
- ☐ I understand that I have the right to withdraw from the research at any time and to decline to answer any particular questions.
- ☐ I agree to provide information to the researcher on the understanding that my name and email will not be given to anyone.
- ☐ I agree to participate in this research under the conditions set out above.

☐ Yes I agree.

about frickin time!

Plimmerton : 16.06.08 2 pm - 3 pm

First session at plimi in a looooooong time. Loads of guys out making themost of it.
I got down there and 5-6 guys were out on 5.0m-5.8m. But I had a feeling it might pick up so I rigged a 4.5m. was the right choice.

Swell was just starting to build as I hit the water and some of the early birds got tired and went home. Wind kicked in another knotch as did the swell, bringing on a classic plimi session.

stoked!
