# **An Empirical Analysis of the Effects of the September 11 Terrorist Attacks upon the US Options Market**

A research report in partial fulfillment of the requirements for  
the degree of Master of Business Studies at  
Massey University

**Nathan Murray Bond**

**2003**

MASSEY UNIVERSITY

1061588424

## **ACKNOWLEDGEMENTS**

I would like to acknowledge and thank my supervisor Professor Rose for his advice and encouragement that he gave me over the course of this research. I would also like to thank my initial supervisor Dr. Thomas Meyer for his advice and support in the formulation stage of this research and his extended support and advice from the USA in the latter parts of this research.

Many thanks must also be conveyed to Dr. Peren Arin for his selfless giving of his time and advice regarding econometric and programming issues surrounding this research. Finally, I would like to thank other members of the Department of Finance staff whom I was able to bounce ideas off and who gave me programming advice throughout the course of this research.
