**A FRACTIONATION OF ACID-SOLUBLE
NON-EXCHANGEABLE POTASSIUM IN SOME
NEW ZEALAND SOILS INTO AVAILABLE
AND NON-AVAILABLE FORMS**

**Owen Fillbridge Haylock
1956**

A FRACTIONATION OF ACID-SOLUBLE NON-EXCHANGEABLE
POTASSIUM IN SOME NEW ZEALAND SOILS INTO AVAILABLE
AND NON-AVAILABLE FORMS

A Thesis Presented

for the

Degree of Doctor of Philosophy

University of New Zealand

April 1956

Owen Filibridge Haylock

INTRODUCTION

	1.
Potassium in Plant Nutrition.....	1.
Available Potassium.....	2.
Forms of Potassium in Soils.....	4.
Weathering of Potassium Minerals.....	6.
Methods of Estimating Available Potassium.....	10.
Mineralogical Determinations.....	10.
Total Potassium Determinations.....	10.
Exchangeable Potassium.....	10.
Plant Growth.....	10.
Residual Exchangeable Potassium.....	13.
Potassium Release and Fixation on Storage and on drying.....	14.
Extraction by Strong Acids.....	18.
Variation in Acid Concentration.....	18.
Temperature of Extraction.....	19.
Ratio of Soil to Acid and Time of Heating.....	19.
Size of Soil Sample.....	19.
Extraction of Minerals.....	19.
Multiple Extractions.....	20.
Nitric Acid Soluble Potassium and Available Potassium.....	21.
Electrodialysis.....	22.
Potassium Status of New Zealand Soils.....	23.

EXPERIMENTAL SECTION

MATERIALS AND METHODS

	24.
Description of Soils.....	24.
Preparation of Laboratory Samples.....	27.
Determination of Physical Properties of Soils.....	27.
Moisture Content of Air Dry Samples.....	27.
Loss of Ignition at 800°C.....	27.
Mechanical Analysis.....	27.
Clay Minerals.....	27.
Minerals of the Coarser Fractions.....	27.
Defermentation.....	27.
Specific Gravity Separations.....	30.
Determination of Fine Sand Minerals.....	31.
Reagents.....	31.
Glasshouse Intensive Cropping Experiment.....	31.
Methods for the Estimation of Potassium.....	33.
Flame Photometry.....	33.

	Page
Construction of Flame Photometer.....	55.
Atomizer and Flame Unit.....	35.
Photometer.....	36.
Calibration of Flame Photometer.....	37.
Methods Used for the Estimation of Potassium.....	39.
Plant Tissue.....	39.
Soil Extracts.....	39.
Normal Ammonium Acetate.....	39.
Normal Nitric Acid and Other Acid Extracts.....	40.
Methods used for Extracting and Fractionating	
Soil Potassium.....	41.
Exchangeable Potassium.....	41.
Potassium Extractable by Strong Acids.....	41.
Batch Extraction.....	41.
Leaching with Acid.....	42.
 <u>RESULTS AND DISCUSSION</u>	 45.
Uptake of Potassium by Italian Ryegrass.....	46.
Growth in Pots.....	46.
Exchangeable Potassium Levels.....	53.
Nitric Acid Extractions.....	58.
Continuous Leaching with Hot Nitric Acid.....	60.
Batch Extraction with Nitric Acid.....	65.
Discussion of Form of Extraction Graphs.....	67.
"Step" Potassium and "Constant Rate" Potassium.....	68.
Potassium Soluble in Nitric Acid from Clays, Silts and Sands.....	69.
Integration of Potassium Solubility Data for Texture Separates.....	75.
Potassium Soluble in HNO_3 from Soil Minerals.....	78.
The Effect of Cations on the Amount of Potassium Extracted.....	84.
Potassium Fixation.....	90.
Potassium Release on Wetting and Drying at 105°C.....	92.
The Effect of Cropping on Acid Soluble Potassium.....	93.
Identification of the Source of Available Non-exchangeable Potassium.....	96.
Classification of Soils into Potassium Responsive and Non-responsive Groups.....	97.
 <u>GENERAL DISCUSSION</u>	 103.
<u>SUMMARY</u>	110.
<u>BIBLIOGRAPHY</u>	113.

LIST OF TABLES

Table	Page
1. Potassium Deficiency Symptoms in Plants.....	2.
2. Summary of Some Published Results of Potassium Uptake by Plants.....	11.
3. Physical Properties of Soils Used for Cropping.....	23.
4. Mineralogical Distribution in the Soils Used for Cropping.....	29.
5. Photometer Readings for Standard Ionic Solutions...	37.
6. Efficiency of Boiling Water as an Extractant for Tissue Potassium.....	39.
7. Exchangeable Potassium Extracted by Different Reagents.....	42.
8. Uptake of Potassium and Yield of Dry Matter from Pot Trials.....	49.
9. Cumulative Uptake of Potassium and Yields of Dry Matter from Pot Trials.....	50.
10. Uptake of Potassium and Yield of Dry Matter from Pot Trials.....	51.
11. Cumulative Uptake of Potassium and Yields of Dry Matter from Pot Trials.....	53.
12. Initial Sampling Dates, i.e. Dates of Sowing.....	53.
13. Exchangeable Potassium in Pot Soils.....	54.
14. Cumulative Uptake of Potassium from Pot Trials....	56.
15. Uptake of Potassium from Non-exchangeable Sources..	57.
16. Effect of Time of Heating on Potassium Soluble in $N HNO_3$	58.
17. Effect of Acid Concentration on Potassium Soluble in $N HNO_3$	60.
18. Potassium Soluble in $N HNO_3$	66.
19. Potassium Soluble in $N HNO_3$ from Coarse Sands.....	71.
20. Potassium Soluble in $N HNO_3$ from Fine Sands.....	71.
21. Potassium Soluble in $N HNO_3$ from Silts.....	72.
22. Potassium Soluble in $N HNO_3$ from Clays.....	73.
23. Summary of "Step" Potassium and "Constant Rate" Potassium for Soils and Their Texture Separates.....	74.
24. Weighted Contributions of the Texture Separates to the "Step" Potassium and to the "Constant Rate" Potassium of Whole Soils.....	78.
25. Summary of Proportions of "Step" Potassium and of "Constant Rate" Potassium derived from Clays..	76.
26. Mechanical Analysis of Middlehurst Silt Loam before and After Defferration.....	77.
27. Potassium Soluble in $N HNO_3$ from Texture Separates from Middlehurst Silt Loam.....	77.
28. Effect of Defferration of Fine Sands on Potassium Soluble in $N HNO_3$	78.
29. Potassium Soluble in $N HNO_3$ from Typical Minerals..	80.
30. Summary of "Step" Potassium and "Constant Rate" Potassium for Typical Minerals.....	81.

Table	Page
31. Potassium Soluble in \underline{N} HNO_3 from Fine Sand Separates of Known Specific Gravity.....	82.
32. Key to Mineral Name Abbreviations.....	83.
33. Effects of Ammonium Ions and of Potassium Ions on Potassium Soluble in \underline{N} HNO_3	85.
34. Effect of Added Potassium or Ammonium Ions on Potassium Soluble in \underline{N} HNO_3	86.
35. Effect of Non-removal of Exchangeable Potassium on First \underline{N} HNO_3 Extraction.....	87.
36. Effect of Sodium, Calcium and Barium on Potassium Soluble in \underline{N} HNO_3	87.
37. Effect of Added Cations on Potassium Soluble in \underline{N} HNO_3 from Texture Separates and Some Minerals.....	88.
38. Effect of Adding 100 me % of Ammonia Ions to Extracting Acid.....	89.
39. Potassium Fixing Powers of Some Soils and Minerals.	90.
40. Potassium Soluble in \underline{N} HNO_3 following Fixation of Potassium.....	91.
41. Non-exchangeable Potassium Released on Wetting and Drying at 105°C.....	92.
42. Potassium Soluble in \underline{N} HNO_3 from Pot Soil Samples, Soil to Acid Ratio 1 : 12½.....	93.
43. Potassium Soluble in \underline{N} HNO_3 from Pot Soil Samples, Soil to Acid Ratio 1 : 100.....	94.
44. Relationship between "Step" Potassium and Non-exchangeable Potassium Taken up by Ryegrass	95.
45. Mechanical Analyses, Before and After Cropping.....	96.
46. Potassium Extracted by \underline{N} HNO_3 from Texture Fractions, Before and After Cropping.....	97.
47. Mechanical Analysis of Deferrated Middlehurst Silt Loam.....	98.
48. Potassium Extracted by \underline{N} HNO_3 from Deferrated Texture Fractions of Middlehurst Silt Loam Before and After Cropping.....	98.
49. Normal Nitric Acid Soluble Potassium from Soils of Known Potassium Response.....	99.
50. Relationship between "Step" Potassium and Potassium Status.....	101.
51. Relationship between Genetic Classification, "Step" Potassium and Potassium Fixing Power.....	106.

LIST OF FIGURES

Fig.		Page
1.	Geologic Soil Map of New Zealand showing Potassium deficient areas and sampling sites.....	3.
2.	Weathering of Primary Rock-forming minerals, according to Fieldes and Swindale.....	5.
3.	Schematic Diagram of the Structure of Muscovite.....	7.
4.	Diagram of Mica Weathering Sequence according to Jackson et al.....	9.
5.	Reliability of Exchangeable Potassium as an index to Potassium Removal by Cropping.....	13.
6.	Selected Photographs of Glasshouse Pot Experiment.....	Face 33.
7.	Photograph of Flame Photometer.....	34.
8.	Diagram of Optical Train of Flame Photometer.....	36.
9.	Flame Photometer Amplifier Circuit.....	37.
10.	Calibration Curve for Potassium Solutions.....	38.
11.	Loss of Potassium on Ignition at Temperatures from 400°C to 700°C.....	40.
12.	Diagram of Leaching Apparatus.....	43.
13.	Relationship between Uptake of Non-exchangeable Potassium and Initial Exchangeable Potassium.....	55.
14.	Relationship between Uptake of Non-exchangeable Potassium and Residual Exchangeable Potassium....	55.
15.	Extraction of Potassium from Whole Soils by Leaching with Nitric Acid.....	62.
16.	Extraction of Potassium from Fine Sand Fractions by Leaching with Nitric Acid.....	64.
17.	Potassium Soluble in Normal Nitric Acid in Repeated Extractions.....	69.
18.	Relationship between "Step" Potassium, "Constant Rate" Potassium and Potassium Response.....	100.
