"AN INVESTIGATION INTO THE BODY TEMPERATURE, RESPIRATION  
RATE, PULSE RATE AND SKIN TEMPERATURE OF DAIRY COWS  
UNDER NEW ZEALAND CONDITIONS, AND A REVIEW OF  
EXISTING KNOWLEDGE ON ANIMAL CLIMATOLOGY  
WITH PARTICULAR REFERENCE TO CATTLE."

Thesis submitted in part  
fulfilment of the degree  
M. Agric. Sci., 1951.

CONTENTS.A. DISSERTATION.

	<u>Page No.</u>
I. <u>INTRODUCTION.</u>	
Object of this section.	1
II. <u>PHYSIOLOGICAL BASIS AND DEFINITIONS.</u>	
1. Body temperature.	5
2. Heat production.	7
3. Heat transport.	10
4. Heat emission.	12
(a) Convection	12
(b) Conduction	13
(c) Radiation	14
(d) Evaporation	14
Factors influencing loss of heat by:	
(a) Convection and Conduction	16
(b) Radiation	17
(i) Area	17
(ii) Temperature	18
(iii) Emissivity	18
(c) Evaporation	19
Physiological Control of Heat Emission	20
Heat balance	22
5. Regulation of body temperature.	22
(a) Short term adjustments	22
Mechanism of nerve receptors	23
Nervous response to cold	24
(b) Long range adjustments	25
6. Effect of External Heat and Cold.	26
(a) Cardiovascular system	27
(b) Alimentary system	27
(c) Urinary system	28
(d) Acid-base balance	29
(e) Endocrine system	29
(f) Energy metabolism	30
(g) Reproductive system	30
(h) Water balance	32
Thirst	33
(i) Acclimitization	33
(j) Results of displaced thermal equilibrium	34
7. Climatic Factors Affecting Heat Loss	35
(a) Radiation	35
(b) Air temperature	41
(c) Air humidity	42
(d) Air movement	43
8. Miscellaneous Factors.	44
Sweating	45
Skin temperature	46
Time sequence of adjustment to cold	47
Time sequence of adjustment to heat	48

III. <u>REVIEW OF LITERATURE.</u>	
1. Heat Production.	49
2. Effect of Climate on Body Temperature of Cattle.	56
(a) Controlled experiments.	57
(b) Field experiments	59
3. Effect of Climate on Respiration Rate of Cattle.	69
(a) Controlled experiments.	69
(b) Field experiments	72
4. Effect of Climate on Pulse Rates of Cattle.	78
(a) Controlled experiments.	79
(b) Field experiments	81
5. Effect of Climatic Elements on the Blood of Cattle.	83
(a) Controlled experiments	83
(b) Field experiments	84
6. Effect of Climatic Elements on Milk Production and Milk Composition of Cattle	85
(a) Seasonal effects	86
(b) High and low temperatures.	89
7. Influence of Solar Radiation on Cattle and the Influence of the Hairy Coat	94
8. The Skin Temperature of Cattle and its Relation to the Thermal Environment.	102
9. Vaporization Loss through the Skin of Man.	106
10. Vaporization Loss through the Skin of Cattle	107
Water consumption	112
Sweat glands and sweating	113
11. Adaptability.	124
12. Limitations of our Knowledge.	127
IV. <u>TECHNIQUES OF MEASUREMENT.</u>	133
1. Body Temperature.	133
2. Skin Temperature.	134
3. Measurement of Absorption and Reflection of Solar Radiation.	139
4. Measurement of Respiratory Rate	140
5. Measurement of Heart Rate and Blood Pressure	142
6. Measurement of Sweating and Evaporative Loss	143
7. Methods of Measuring the Thermal Elements of Climate.	146

CONTENTS.B. EXPERIMENTAL.Page No.

I.	<u>INTRODUCTION.</u>	
	Objects of this Section.	148
II.	<u>METHOD OF PROCEDURE.</u>	
	(a) Stock	150
	(b) Skin temperature apparatus	150
	(c) Body temperature	151
	(d) Respiration rate	152
	(e) Pulse rate	152
	(f) General procedure	152
	(g) Diurnal Trial	153
	(h) Skin temperature	154
III.	<u>SOURCE AND TREATMENT OF THE DATA.</u>	
	A. Preliminary Skin Temperature Work.	155
	B. Outside Measurements.	155
	C. Diurnal Data.	156
	D. Skin Temperature Data.	157
IV.	<u>RESULTS.</u>	
	A. Preliminary Skin Temperature Work	158
	Discussion	160
	B. Outside Data.	164
	(a) Skin temperature	164
	(b) Rectal temperature	168
	(c) Respiration rate	171
	(d) Pulse rate	173
	(e) Components of variance	175
	(f) Intra-class correlations	175
	(g) Correlation analysis	178
	(h) Regression	180
	(i) Partial Correlation and multiple correlation analyses	186
	C. Diurnal Data.	189
	(a) First Section	189
	(b) Second Section	191
	(c) Correlation analysis	193
	D. Skin Temperature.	195
	(a) The influence of hair	195
	(b) Position effect	196
	E. Air Temperature Data.	198
	(a) Outside measurements	198
	(b) Diurnal trial	199
	(c) Skin temperature trial	199
