Sarah,

Well done; there is light at the end of the tunnel!

I approve your request to use the Sircol manual in your thesis, which you can download directly from our website.

Looking forward to reading your subsequent published research paper(s)

Dr Roy Elliott, CEO Biocolor

Dear Sir or Madam

I am in the process of writing up my PhD and used your Sircol assay as a part of it. I had planned to include your pdf on Sircol in my appendices and obviously to describe the technique in my thesis.

I note that I need written permission for this and wondered how I may obtain that.

Yours sincerely

Sarah Taylor
