

MASSEY UNIVERSITY

Risk Assessment Guidelines – Participant Home Interview

- The Principal Researcher will notify their Supervisor and Husband of location, arrival, and departure by text
- The Principal Researcher's Husband is available to travel to location if a departure text is not received with one hour of the expected time and calls to Principal Researcher are not responded to
- Participants will be asked to confirm the absence of aggressive pets and their restraint if present
- COVID Protections
 - The researchers physically attending the interviews will do so on the basis of a same day negative COVID RAT result
 - Researchers will sit socially distanced by a minimum of 2m from participants during the interview
 - Masks will be worn by researchers at all times and a mask will be available to offer to participants if they wish to also wear one
