THE DEVELOPMENT
OF
UNPLOUGHABLE HILL COUNTRY

by

A. WRIGHT

A Thesis Presented in Partial Fulfilment
of the Requirements for the Degree of
Master of Agricultural Science
in Massey University of Manawatu.

August, 1963.

CONTENTS

	<u>Page</u>
CHAPTER I INTRODUCTION	1
CHAPTER II REVIEW OF RESEARCH AT TE AWA	6
2.1 Historical	6
2.2 Research Results	8
2.21 Oversowing	8
2.22 Topdressing	10
2.23 Subdivision	10
2.24 Method of Grazing	11
2.25 Stocking Rate	11
2.26 The 50-Acre Paddock	13
2.3 Difficulties in Economic Analysis of Te Awa	14
CHAPTER III THE FARM SURVEY	17
3.1 Definition of the Survey Area	17
3.2 Selection of Farms	18
3.3 Interview Procedure	20
3.4 Design of the Questionnaire	23
3.5 Reports to Farmers	24
CHAPTER IV DESCRIPTION OF THE SURVEY AREA	26
4.1 Climate	26
4.2 Soils	27
4.21 Atua - Taihape Soils	27
4.22 Kumeroa - Whangaehu Soils	27
4.23 Turakina Silt Loam	29
4.24 Raumai - Kiwitea - Pohangina Soils	29
4.25 Matamau Hill Soils	29
4.26 Halcombe Silt Loam, Hill Soil	29
4.27 Westmere Silt Loam, Hill Soil	29
4.28 Mokaui Sandy Loam	30
4.29 Mounahaki Steepland Soils	30
4.3 History of Farming	30
4.4 The Survey Farms	32

		<u>Page</u>
CHAPTER V	TECHNICAL ASPECTS OF DEVELOPMENT	35
5.1	Secondary Growth	35
5.11	Manuka	35
5.12	Gorse	37
5.13	Fern	40
5.14	Variegated Thistle	41
5.2	Subdivision	42
5.3	Topdressing	44
5.4	Oversowing	46
5.5	Increased Stocking and Grazing Management	48
5.51	Grazing Method	48
5.521	Stocking Rate - Some Theoretical Considerations	48
5.522	Stocking Rate - Practical Observations	51
5.53	Type of Stock	54
5.6	Farm Development	56
CHAPTER VI	THE PROFITABILITY OF DEVELOPMENT	57
6.1	Problems of Assessing Profitability	57
6.11	Physical and Economic Variation	58
6.12	Problems of Time	58
6.2	Method of Analysis	60
6.3	Limitations to Practical Application	65
6.5	Case Farm A	71
6.51	Original Condition of the Farm	71
6.52	The Development Programme	71
6.53	Future Development	73
6.54	Limiting Factors to Development	73
6.55	The Profitability of Development	73
6.6	Case Farm B	79
6.61	Original Condition of the Farm	79
6.62	The Development Programme	79
6.63	The Profitability of Development	81
6.64	Interpretation of Results	87
CHAPTER VII	FACTORS LIMITING OR PREVENTING DEVELOPMENT	88
7.1	Taxation	
7.11	The Impact of Taxation on Development	89
7.12	Suggested Improvements to Farm Taxation	90
7.2	Credit Facilities	91
7.21	The Use of Credit for Development	91
7.22	Features of Development Out of Revenue	92

	<u>Page</u>
7.23 Credit Requirements for Development	93
7.24 Existing Credit Facilities	94
7.241 Trading Banks	94
7.242 Insurance Companies	95
7.243 Stock Firms	95
7.244 State Advances Corporation	96
7.245 Marginal Lands	96
7.25 The Need for Qualified Advisors	97
7.26 Needed Improvements to Credit Facilities	98
7.27 The Scope for Further Investigation of Rural Credit	99
 7.3 Labour	 99
7.31 The Labour Problem on Hill Country	100
7.32 Reasons for the Shortage of Labour	100
 7.4 Death Duties	 102
7.41 Farmer Attitudes	103
7.42 The Reduction of Death Duties	103
 7.5 Farmer Knowledge	 103
7.51 Problems of Inadequate Knowledge	104
7.52 The Spread of Knowledge	105

CHAPTER VIII CONCLUSION - THE POTENTIAL FOR INCREASED PRODUCTION 106

LIST OF TABLES

		<u>Page</u>
TABLE	2.1 Results of Stocking Rate Trial	12
	2.2 Carrying Capacity of the 50-Acre Paddock	14
	4.1 Major Hill Soils in the Survey Area	28
	4.2 Survey Farm Data	33
	5.1 Costs of Gorse Development	39
	5.2 Estimates of Fencing Costs	43
	6.1 A Hypothetical Development Programme Financed From Revenue	61
	6.2 Development Financed from Revenue - No Taxation	64
	6.3 Development Financed by Borrowing - Debts Serviced	66
	6.4 Development Financed by Borrowing - Debts Serviced - No Taxation	67
	6.5 Development Financed by Borrowing - Debts Repaid	68
	6.6 Development Financed by Borrowing - Debts Repaid - No Taxation	69
	6.7 Physical Aspects of Development - Case Farm A	74
	6.8 Development Expenditure - Case Farm A	74
	6.9 The Profitability of Development - Case Farm A - Before Taxation	76
	6.10 The Profitability of Development - Case Farm A - After Taxation	77
	6.11 Physical Aspects of Development - Case Farm B	82
	6.12 Development Expenditure - Case Farm B	82
	6.13 The Profitability of Development - Case Farm B - Before Taxation	83
	6.14 The Profitability of Development - Case Farm B - After Taxation	84
	6.15 The Profitability of Development - Case Farm B -After Taxation - (Based on Maximum Ewe Numbers)	86

3.1	Map of Survey Area	19
4.1	Typical Unploughable Hill Country in the Survey Area	31
5.1	The Relationship Between Stocking Rate and Wool Output Per Acre	50

ACKNOWLEDGEMENTS

The author wishes to thank his supervisor Professor W.V. Candler for his advice and encouragement during this study. The assistance of Mr. F.E.T. Suckling is also gratefully acknowledged.

The efforts of the many people who assisted with the collection of material and ideas for this study, are appreciated. Special thanks are due to the farmers for their co-operation and hospitality during the survey.

Thanks are also due to the Library staff for their assistance in obtaining references, and to Miss A. Whitehead for typing this thesis.

During the study the author was assisted by a Wool Board Scholarship and by a grant of £100 from the Institute of Economic Research.
