A STUDY OF
PASTURE PATTERN IN RELATION TO MICROTOPOGRAPHY

A Thesis, presented in partial fulfilment of the
requirements for the degree of

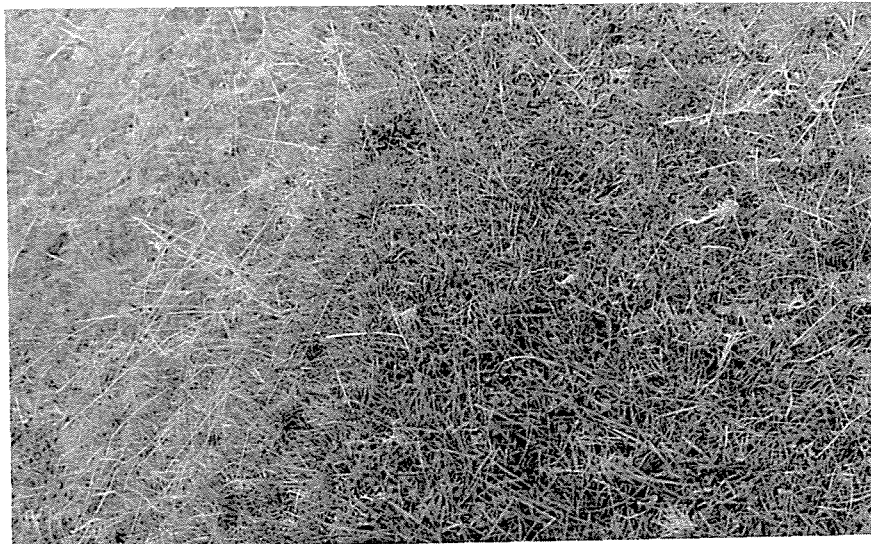

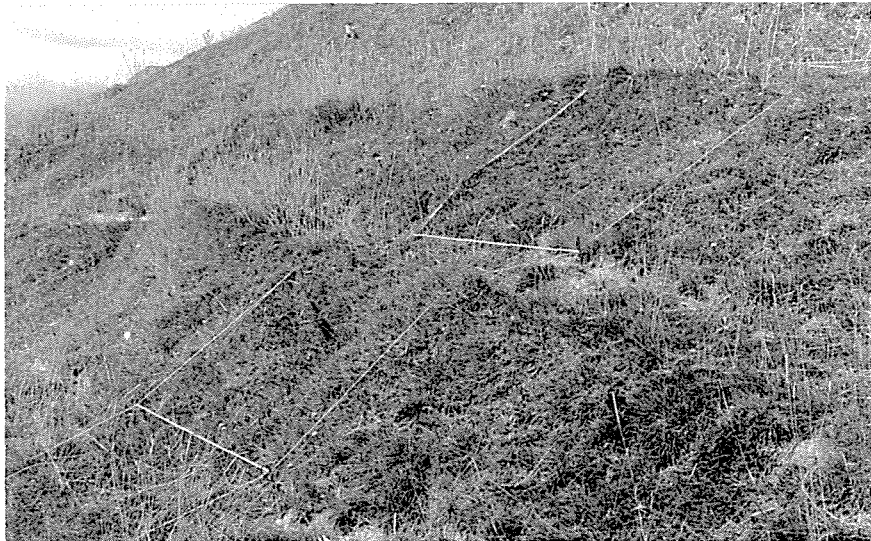

Master of Agricultural Science

at

Massey University

Peter John Rumball

October, 1966

A C K N O W L E D G E M E N T S

The help and active encouragement of Mr. A.E. Esler of the Agronomy Dept. is very much appreciated.

Thanks are also due to: Mr. W. Rumball for practical assistance, Dr. R.W. Brougham, Mr. A.C. Glenday and Mr. D.B. Edmond for freely given advice, Mr. E.A. Esler, Mr. W.R.N. Edwards and Miss E.O. Campbell for confirmation of species identifications, Mr. P.H. Whitehead and other farmers who readily allowed access to their farms, the staff of the Library and Central Photographic Unit for their co-operation, and to Miss Wendy McGowan who typed this thesis.

C O N T E N T S

Title

Acknowledgements

Chapter I. Introduction and Review

Significance of Pattern	1
Development of Pattern Studies	
Correlation with Habitat	3
Pattern in the Pasture	7
Project Outline	9

Chapter II. Slope Survey

A. Introduction	10
B. Methods	11
C. Results	16
D. Discussion	18

Chapter III. Pasture Analyses

A. Introduction	25
B. Methods and Materials	26
(i) Site Selection	
(ii) Sampling	27
C. Preliminary Trials	31
(i) Sampling Intensity	
(ii) Comparison of Cover and Yield	33

D.	Main Trial Results	34
(i)	Transect Comparisons	35
(ii)	Pattern Within Transects	38
(a)	Growth Form Patterns	
(b)	Compositional Patterns	46
E.	Discussion on Pattern.	59
Chapter IV. Habitat Analysis		
A.	Introduction	64
B.	Root Profiles	67
C.	Soil Variation	68
(i)	Soil Type and Description	
(ii)	Soil Moisture	71
(iii)	Soil Compaction	76
(a)	Profile Resistance	77
(b)	Surface Resistance	79
(c)	Bulk Density	81
D.	Differential Behaviour of Grazing Sheep	83
(i)	Grazing	
(ii)	Treading	84
(iii)	Excretion	
E.	Discussion on Habitat Variation	88
Chapter V. General Discussion and Summary.		
	Correlation of Vegetation and Habitat	91
	Practical Importance	96
	Summary	98
