**What is the decision making process of entrepreneurs' implementation of MCS software,  
and how are external consultants engaged and used in the process? How does this  
engagement affect any ongoing relationship between the two?  
An Exploratory Study**

**Table of Contents**

Introduction .....	4
Importance of SMEs .....	4
Definition of SME .....	5
Importance of Management Control Systems (MCS) .....	5
MCS defined.....	5
Reasons for adopting systems. ....	6
Role in company growth. ....	7
Comprehensiveness of examining SMEs and MCS .....	7
Use of consultants.....	8
Summary of importance of MCS.....	8
Benefits of Studying System Implementation in SMES.....	8
Research Question .....	9
Theoretical Framework.....	9
Exploratory nature of research.....	9
Refinement of models.....	9
Summary .....	10
Literature Review.....	10
Overview .....	10
Differences Between Large Enterprises and SMEs .....	11
Lack of resources and expertise.....	12
Lack of internal controls.....	13
Access to funding. ....	14
Technology and support infrastructure. ....	14
Differences Among SMEs .....	16
International differences. ....	16
Cultural differences.....	18
Effect of geographical differences. ....	19
Age differences. ....	19
Summary .....	20
Understanding About How SMEs Operate .....	20

Importance of introduction of MCS.....	21
Early stage development. ....	21
Factors that influence MCS adoption. ....	22
Order of MCS adoption. ....	28
Resistance to change. ....	29
How Systems are Used by an SME.....	32
Exploitive use. ....	32
Explorative use.....	32
Synthesis of exploitive and explorative use in technology acceptance.....	34
Summary. ....	36
Decision Making in an SME.....	37
Board of Directors decision making. ....	37
Founder entrepreneur CEO decision making.....	39
Senior manager or IT expert decision making. ....	42
Summary of decision making.....	43
Access to decision making.....	43
Decision making by the founder entrepreneur CEO.....	43
Decision making by senior management.....	44
Decision making by Boards of Directors.....	44
Consultants.....	45
Use of consultants over the business life cycle. ....	46
Characteristics identifying use of consultants. ....	48
Types of consulting arrangements.....	49
Consulting particular to MCS. ....	51
Inter-relationship of consultant and SME.....	52
Differences between IT consultants and external accountants. ....	55
Summary. ....	57
Models and Frameworks.....	57
Delone & McLean “Net Benefits” model. ....	58
Stage model. ....	58
Technology acceptance model (TAM). ....	59
Electronic data interchange (EDI) adoption model.....	60
Unified theory of acceptance of use of technology (UTAUT). ....	60
Iacovou model.....	61

Synthesis of factors for examination. ....	63
Research Methodology.....	64
What was Done.....	64
Basis for Research Methodology.....	65
Qualitative approach. ....	65
Case study approach.....	65
Interview Methodology. ....	66
Interview selection.....	70
Timing of interviews.....	71
Location of Interviews.....	71
Interview summary.....	71
Human Ethics and Professional Ethics Guidelines .....	72
Findings.....	73
Background of Entities Interviewed. ....	73
Summary of MCS or System Changes Made .....	74
Key Findings .....	75
Decision making processes. ....	75
Engagement and use of consultants.....	77
Effect on on-going relationship with consultant. ....	80
Other.....	81
Conclusions and Implications.....	83
Decision Making .....	83
Role of External Consultants .....	83
Effect on On-going Relationship with Consultant.....	83
Summary of Results from Interviews .....	84
Limitations of the Study.....	84
Future Research .....	86
Business life cycle.....	86
Cross comparison with consultants. ....	86
Enhancing the role of external accountant.....	86
Implications.....	86
Appendix One Interview Questions .....	87
Appendix Two References .....	88
