COMMON CENTER	zanshin*	hipparu*	extension
"In <i>Ushiba's opinion, Aikido's secret is how you move your mind, not your feet, and this centers us <u>centering</u> how we reach <u>reach</u> through the world and interact with others"</i>	"remain attentive and balanced." [IASDR-2009]	"to pull, to draw, or to stretch with the energy" "synchronizing to enable co-creative flow." [IASDR-2009]	"process leadership skills" "coordination for moving and facilitating" [IASDR-2009]
movement practices -practices in place and space	step forward	motion led	lead
emerging over time	-straight -stepping -entering -lead	transient -circular -pivot -spin -blending -leading	
"...an ever-expanding sense of awareness." (Petman, 1992, pp. 4-5)			
interconnected nexus	personal personally? (revolves around)	relational relationality? (concerns)	situational collectively? (involves)
subcategories	subcategories	subcategories	subcategories

20/9/13	Be	We	Do
transformational -immediate, available & responsive -begin where you stand -a focus on the present -something we live -finding space for people to move	transition -movement from one position to another -a process of transforming -a step forward (time)	transference -the act or process of transferring -shift to another -perceptual leads	transcend -go beyond -surpass -trans- "beyond"
LEADS -operational	across	through	beyond
consciously embodying an action-centered way of being in the world -mind-set -participative -distributed leadership -interfacing through practices -to operate from a centralized position	where could this lead (contingent)	how we practice (intentional)	what could be (potential)
PLACE -a neutral zone -create a neutral environment that takes away the ego -an environment that's open minded, responsive -a mobile laboratory -gathering space -relational, historical and concerned with identity	a place to start	a process place	any/every place a mobilizing place
SPACE (WellDo System) -integrative -interweaving -overlapping -interweaving -interconnected -interconnectedness -transformational -connecting -an opportunity space -spaces that move people -temporary creative space -space should offer opportunities	personal space	relational space	generative space a moving space an engaging space
and room for exchange in a personal level -a "temporal place"			
parallel between the place as an assembly of elements existing in a certain order and the space as an animation of these places by the motion of a moving body	move	moving together	Lead the movement
processes of practicing -interjugal sense of timing in human affairs -an <u>intentional</u> form of moving -a shifting center of intention -the space between -the communicating body -dynamic intra-activity -Timing -space <u>space</u> in the loop	awareness -between practices -changing posture & stance -opposite spaces for dialogue and exchange on a more personal level -stance -personal transformation -following through -intention -be in action -intention towards -leading to... -people moving INTO	synchronize to enable co-creative flow -act in ways that influence processes -a dedicated person to buffer colliding worlds -practice as a dynamically interwoven social activity -bringing together -processes of knowing -moving ideas around -fluid interplay -to move together -motion led -can become part of the activity -leading actions -creative tension -leading in... -entering the exchange of ideas -a deeply performative space	leading an open-ended process -enlarging the process of connecting -Find out -romanticize to shape a community where people will not only connect, but start to collaborate. -instantaneous configuration of positions -to perform -generative practices -engaging -leading practices -leading by... -engage and mobilize
WellDo is a new practice for	body, bodies, and being embodied		arrays of activities performative practice

28/8/13
a process of practicing co-creation

28/8/14
more dynamic
needed on model on how to... possible ups.
we're always moving
lead the movement?
