A STUDY OF
FACTORS AFFECTING TEST
DAY RECORDS OF DAIRY CATTLE

A thesis presented in partial fulfilment of
the requirements for the degree of
Master of Agricultural Science
in Animal Science at
Massey University

by Brian Walter Wickham

AUGUST 1972

AUGUST, 1972

I give permission for my thesis, entitled A STUDY OF FACTORS AFFECTING TEST DAY RECORDS OF DAIRY CATTLE to be made available to readers in the Library under the conditions determined by the Librarian.

I agree to my thesis, if asked for by another institution, being sent away on temporary loan under conditions determined by the Librarian.

I also agree that my thesis may be microfilmed for Library use.

Signed:

A handwritten signature in cursive script that reads "B.W. Wickham". The letters are dark and fluidly connected.

B.W. WICKHAM.

ACKNOWLEDGEMENTS

It is a pleasure to thank Prof. A.L. Rae for his assistance and guidance in all aspects of this study. Dr. D.A. Evan's, of Dalgetys N.Z. Ltd, help with the development of models and estimation procedures is gratefully acknowledged. For assistance with programming and computing I sincerely thank Mr R.P. Irving and Mrs S. Shilton of the New Zealand Dairy Board.

The opportunity to use the extensive records and computing facilities of the New Zealand Dairy Board has been much appreciated. Without the generous financial assistance of the Farm Production Division of the New Zealand Dairy Board this study would not have been possible.

TABLE OF CONTENTS

	Page
INTRODUCTION	1
REVIEW OF LITERATURE	4
A. FACTORS INFLUENCING TEST DAY PRODUCTION	4
1. Age at calving	4
Estimating the affect of age	5
Factors influencing the affect of age	7
(i) Herd environment	7
(ii) Season of calving	8
(iii) Geographical region	9
(iv) Year	10
(v) Breed-sire-genotype	10
(vi) Stage of lactation	11
(vii) Trait	11
2. Stage of lactation	12
Describing the lactation curve	12
(i) Curve shape	12
(ii) Ratios and regressions of whole lactation on part lactation	13
Factors affecting curve shape	13
(i) Breed-sire-genotype	14
(ii) Age at calving	14
(iii) Season of calving	14
(iv) Herd	16
(v) Yield trait	16
(vi) Gestation	17
(vii) Dry period	17
3. Herd-year	17
B. CORRECTING TEST DAY RECORDS	18
C. PARAMETERS OF TEST DAY RECORDS	19
D. THE NEW ZEALAND RANKING INDEX	20
METHOD OF ANALYSIS	24
ESTIMATION OF THE AFFECT OF AGE AND DAYS IN MILK ON TEST DAY PRODUCTION	24
The model	24
A general solution to the model	25

CORRECTION OF TEST DAY RECORDS	28
(i) For days in milk	28
(ii) For age at calving	28
THE CORRECTED RECORDS	29
ANALYSES OF CORRECTED RECORDS	31
DATA	32
RESULTS	36
Estimates of fixed effects and regression coefficients	36
Adjusting test day records for age and days in milk	42
Variance component estimates	46
DISCUSSION	52
Estimation procedures	52
The estimates	54
Variance components	59
Measures of production	60
Areas for further study	63
CONCLUSIONS	64
SUMMARY	65
BIBLIOGRAPHY	66
APPENDIX	78
Appendix A	78
Appendix B	79
Appendix tables	82
Appendix figure	89
